

## COVID-19 STUDIO POLICIES

To ensure the safety of all, we have the following policies in place:

- To better ensure contact tracing, we are taking everyone's temperature and documenting it on the way in and out of every session.
- We sanitize microphones, headphones, microphone stands and door knobs. (We strongly encourage actors to bring their own pair of headphones)
- Everyone entering the studio is required to wear a mask while inside the studio (with the exception of vocal recording in the booth).
- We adhere to the recommended 6 feet of social distancing.
- The current studio maximum capacity is limited to three people.

Together we can maintain a healthy environment and combat the spread of Covid-19.

We thank you for being a loyal client. Please don't hesitate to reach out as we remain dedicated to serve you and your company with all of your recording and mixing needs through these challenging times.
